

Five Loaves Two Fish The Klipplaat Remedial Reading Project October 2017

The Remedial Reading Project at the Brandovale Primary School in Klipplaat continues to go well, and we are delighted to report that some generous donations have made its future secure.

In September the Summit Wildlife group held their annual game auction, and included in their catalogue were two charity lots, one of which was in aid of the Klipplaat Remedial Reading Project. Last week, we were delighted to have members of the group (pictured below in red), as well as Haydn Krige who donated the lot and Warrick Barnard of Woody Cape Wildlife who bought it at a generously inflated price, come to the school to see our teachers in action.

They were very happy with what they saw, so much so that Haydn and Warrick sat down and enjoyed a little of Mrs Bruiners' inspired teaching. We were all touched when Mr Krige, below on the right, told us that he is glad to support this project because when he himself was little and learning to read, he too benefitted from the help of a remedial teacher. Many children do, but in most poor schools they have no access to such help.

The teachers were very encouraged by the interest and support shown by these visitors. Anyone else who would like to see our two ladies in action, would be most welcome. They are there every school day, all morning, lovingly and patiently teaching children to read. Not only do the children learn, they also benefit from the individual attention and love that they receive.

In addition to the generous donation made by these farmers, the contributions of our regular, faithful donors enable us to pay our two teachers every month and to supply them with books and teaching materials. As the name Five Loaves Two Fish implies, every little bit given in faith is multiplied and blessed. We certainly feel as if the Lord has reached down and blessed this work.
